CABLES TO GO

WallPlate Modules

Premise Plus™ Pro

Cables To Go's Snap-In Modules offer variety and flexibility in designing your wallplate requirements. The Snap-in Modules come in three sizes - 1/2in height, 1in height flat modules and 1-1/2in height 45-degree angled modules for bend radius protection of fiber and copper cabling. A single gang wall plate opening can accommodate three 1in flat modules or two 1-1/2in angled modules.

The modules are a "snap" to install and remove, giving you a highly adaptable system. The Snap-in Modules can be easily snapped out of the front of the plate, so that changes can be made without removing the plate after installation. Ruggedized construction ensures years of trouble-free use. The stylish design allows for seamless integration into home or office decor.

Premise Plus Pro wallplate openings can accommodate three 1" flat or two 1-1/2" angled modules.
